## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5-14 are reject due to the recitation of "the clip (8)" in claim 5. There is insufficient antecedent basis for this recitation in the claim.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Anderson (U.S. Patent No. 4,976,618). Anderson discloses in Figure 4 an intraoral apparatus (14) and method for treating temporomandibular joint dysfunction and bruxism receiving by patient's upper dental arch (12) comprising elements as recited in these claims including a flexible cavity (17) containing fluid or gas and the cavity (17) is connected to another flexible cavity (36) by tubes (18, 40). The apparatus (14) is stabled during wear by an engagement (28).

Art Unit: 3743
